

THE MOST COMPREHENSIVE SOLUTION TO STARS MANAGEMENT & OPTIMIZATION

Medicare Stars targets continue to evolve and the competition gets better every year.

Give your Stars team the capabilities they need to deliver exceptional results in less time. Instantly understand how your contracts perform against specific peer groups or the industry as a whole, which measures will drive the most value and why, and where you should invest your finite intervention resources for the biggest gains.

Hyperlift's Stars Management Suite delivers incredible agility and insights to any Stars organization regardless of size or performance—managing your Stars performance has never been easier. From strategy development to intervention execution, make your Stars team shine with Hyperlift's Stars Management Suite.

Establish a Stars Playbook

Use Hyperlift's historical measure movement analysis to identify realistic and achievable measure performance targets. Evaluate potential Star rating impacts of different scenarios and save them for comparison and analysis.

Set Realistic Targets and Model Scenarios

Use Hyperlift's historical measure movement analysis to identify realistic and achievable measure performance targets. Evaluate potential Star rating impacts of different scenarios and save them for comparison and analysis.

Optimize Measure Performance

Accelerate measure improvement using Hyperlift's library of over 200 proven and scored interventions including member-level predictive modeling. Manage the Stars progress throughout the year in a single platform.
